Objective

B.E. Artificial Intelligence and Data Science student with hands-on experience building AI-powered applications, LLM/RAG systems, autonomous security platforms, and deep learning solutions. Strong foundation in Java, OOP, JavaScript, React.js, REST APIs, databases, and Generative AI, seeking to contribute to scalable full-stack fintech products and AI-powered features.

Education

PVG's College of Engineering and Technology, Pune — Aug 2023 – Jun 2027
B.E. Artificial Intelligence and Data Science — **CGPA: 8.96**

SP College, Pune — Apr 2021 – Apr 2023
Higher Secondary Certificate — MHT-CET: 92.80% | HSC: 64.5%

Technical Skills

Programming: Java, Python, C++, JavaScript, Object-Oriented Programming (OOP), Data Structures & Algorithms
Frontend: React.js, HTML, CSS
Backend: FastAPI, Flask, Django, REST APIs
AI & GenAI: AI Fundamentals, Generative AI, LLMs, AI Agents, RAG, LangChain, Prompt Engineering, NLP, AI Integration
Databases: MySQL, MongoDB, Supabase, SQL, Database Fundamentals
ML/DL: TensorFlow, Keras, PyTorch, Scikit-learn, XGBoost, Random Forest, CNN, MobileNetV2, VGG19, Transfer Learning, Computer Vision, Data Augmentation
Cloud/Tools: AWS (EC2, S3), Git, Docker, CI/CD, Postman, Selenium, BeautifulSoup, Chrome Extension Development
Engineering: Clean Code, Documentation, Debugging & Troubleshooting, Code Review, Problem Solving, Attention to Detail, Teamwork, Communication, Knowledge Sharing

Projects

SentinAI – Autonomous AI Security Platform — Python, RAG, Docker, Custom Reasoning Engine, Jira API
Autonomous Security Platform

- Built an autonomous vulnerability detection platform combining API testing, browser automation, and security scanning into one pipeline with zero external AI API calls.
- Engineered exploit chaining across 10+ vulnerabilities into critical attack paths with automated test generation and Zero Trust simulation.
- Implemented business-impact reporting, Jira auto-ticketing and RACI assignment; **1st Runner-Up** at MITWPU Ciphathon 26 among 30+ national teams.

Krishi Sahayak – AI AgriTech Platform — Python, FastAPI, LLMs, NLP, Deepfake Detection
LLM-powered Farmer Assistance Platform

- Built an LLM-powered farmer assistance platform covering 50+ government schemes, crop insurance, and agricultural credit.
- Integrated an 88% accurate DeepFake Detection Hub for scheme/insurance fraud and personalized financial-literacy learning; **Best Solution Award** among 450+ teams.

HoneyPhish – AI-Resistant Phishing Detection & Deception — Python, ML, NLP, Flask, Chrome Extension
AI Phishing Detection and Deception Framework

- Built an AI-powered phishing and AI-origin detection system with automated URL/content feature extraction and behavioral analysis.
- Achieved **94% detection accuracy** with sub-200ms scanning and developed a browser extension for real-time phishing detection.

Experience

PVGCOET R&D Cell, Pune – AI Research Intern — Jan 2026 – Mar 2026
Technologies: Python, TensorFlow, Keras, MobileNetV2, VGG19, MobileNetV3, Transfer Learning, Computer Vision, OpenCV, Data Augmentation, Pandas, NumPy, Matplotlib, Seaborn

- Developed a **MobileNetV2 regression model** using transfer learning for real-time banana spoilage estimation, achieving $\mathbf{R^2}$ = **0.91** across 5 ripeness stages (Day 0–7), outperforming VGG19 and MobileNetV3 baselines.
- Created and published a custom longitudinal **computer-vision dataset on Mendeley Data**; applied flipping, rotation, and brightness augmentation to expand it to **1,200+ annotated images**.
- Benchmarked 3 CNN architectures using loss-curve analysis and co-authored a research paper currently in progress for **peer-reviewed journal submission**.

Achievements & Certifications

Achievements: 1st Runner-Up – MITWPU Ciphathon 26; Best Solution Award – Innovate You National Techathon 3.0; Selected – FUSION 2025 National Level Hackathon.

Certifications: TensorFlow Keras Bootcamp – OpenCV University; Getting Started with Deep Learning – NVIDIA; Data Science/ML/DL/NLP Bootcamp – Udemy; NLP using Deep Learning – Analytics Vidhya; IBM Granite Code Generation & Optimization; Python & Django REST API – Udemy.
